 Answer 1:
 Question 2:
 Answer 1:

Enter the correct answers and click on submit. A change password page is displayed. Enter the new password and click on Submit. You will now be redirected to the Login page. Enter the username and password that you just changed and click on the Login button.

Search for skills, Send Message and View message:

The home page looks like the picture below. It has navigation links in the header. The Home button navigates to the Search page, Messages button is a menu displaying links for Inbox and Sent items. It also displays the number of messages the user has unread.

In the search page, at least one of the fields must be filled here. By selecting multiple fields, you will further filter out the search results. Select the criteria as desired and click on Search.

Find what you need here.

Search by Skill

Search by Category

Search by Location

Search by Free Time

Morning
Afternoon
Evening

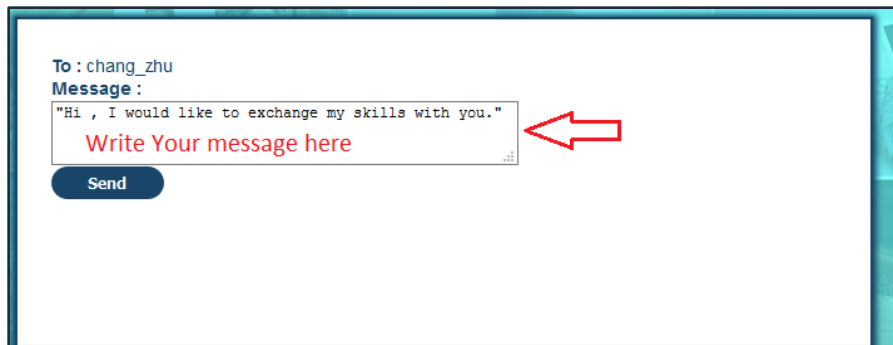

The results are displayed as shown above. If there are no results found then a no results found error message is shown to the user.

Results found matching your search

Zhu Chang Italian Cuisine - Italian Cooking Expert. Master Chef winner	Location: Troy	Available: Morning	<input type="button" value="Send Message"/>
Chanell Lucas Italian Cuisine - I make delicious Italian Food.	Location: Troy	Available: Afternoon	<input type="button" value="Send Message"/>

The send message button adjacent to each user's profile allows you to send a message to that user.

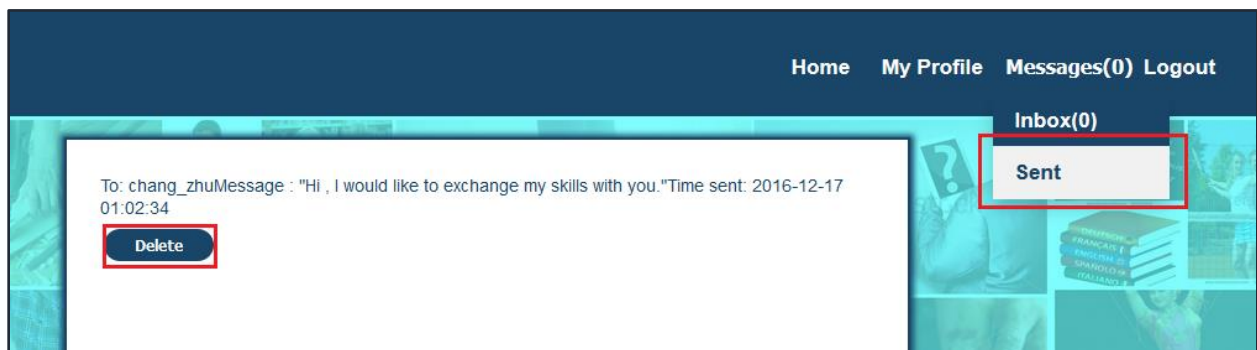

On click of send message button, the compose message is displayed with a default message. You can edit this message.

To : chang_zhu
Message :
"Hi , I would like to exchange my skills with you."
Write Your message here
Send

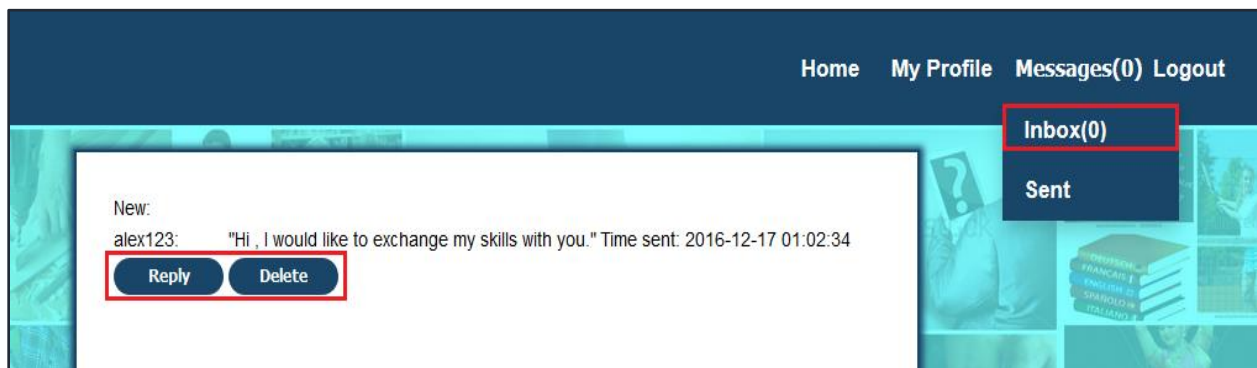

After editing your message click on Send Message to send the message. A 'message sent' message is shown on top of the page if it is sent successfully.

You can also view the sent message in the Sent link under Messages tab in the header.

There is a delete button that lets you delete the message only for the current user after confirmation. If there are no messages in the sent folder, then a message is displayed to indicate it is empty.

Similarly, the inbox option under messages tab displays the messages as shown below:

There are 2 buttons, Reply and Delete. On click of Reply button, it is navigated to the Compose message page with the To user as the user who sent the message. The delete button works the same way as in the sent tab.

The screenshot shows a messaging interface with a dark blue header. Below the header, there is a white box containing a message. The message is addressed to 'alex123' and contains the text: "Hi , Its awesome to know that you are interested in my |skills. Even I would like to learn Italian Cuisine." Below the message text is a blue 'Send' button. The entire message box is highlighted with a red border.

Profile Update and Logout:

Another important feature is the Profile tab in the header. It displays all the information that the user entered during registration. It enables the user to edit any field except the username and password.

The screenshot shows the user profile page. At the top, there is a dark blue header with navigation links: 'Home', 'My Profile' (highlighted with a red box), 'Messages(0)', and 'Logout'. Below the header, the page is titled 'View or Edit your profile'. It contains a form with various input fields for personal details: First Name (Aman), Last Name (Siddiqui), Age (32), Phone No (222-333-4444), Email Id (aman@xyz.com), Address Line 1 (2091, Elliot Dr), Address Line 2 (Suite#221), City (Dearborn), State (Michigan), Zip Code (48089), and Availability (Afternoon). A blue 'Change' button is highlighted with a red box. To the right of the form, there is a red text overlay that says 'Make any changes in your details'. On the far right, there is a sidebar with a blue background and the text 'WHAT ARE YOUR SKILLS'.

The user can edit the personal details and click on the Personal Details button. The success message is displayed upon successful update. The page also gets reloaded showing the updated values.

If the user entered an invalid input field then after validation, the page loads with the incorrect values
